

[eFundYourHealth.org](http://eFundYourHealth.org) wants to make sure you have a successful crowdfunding campaign and positive experience. Explained in this [article](#) "Everything you Need for a Winning Crowdfunding Campaign" may be of help to you as you go through the below check list for adding your personal campaign.

### Adding your story

- Your personal journey with the condition.
- Take time to prepare your information and content.
- Make sure you add a picture.
- What were some extreme lows that you have dealt with?

### Check list of what should be included in your story

- Your personal journey thus far.
- How has this effected you, your family and the friends around you?
- How has life changed with this condition?
- Why did you choose natural medicine? What aspects of your treatment would be added with the funds?
- How will the funds be used?
- What is your wellness plan? What are the costs associated with this?
- How will this funding change your life for the better?

### How to share your campaign on social media

- Visit our website click on your individual campaign, copy and paste your link into a facebook post or other types of social media to share with your friends and family
- Share on a support group website or facebook page, twitter, youtube or instagram account

### Sharing your campaign via email

- Include your link in an email to friends and family in your contact list letting them know about creating your campaign

### How to update people on your campaign progress

- Log into your campaign often and post updates in your campaign.
- Share on social media a few days in stating if you're close to your goal, have friends and family share even if they are not able to donate at this time

### Remembering to thank your donors

- Sending a thank you card if you personally know the donor
- Following up with an email/text with gratitude
